

What is FMICodes?

The hackathon **FMICodes** is held at The Faculty of Mathematics and Informatics(FMI) of Sofia University "St. Kliment Ohridski" and its goal is to bring students together and motivate them to create and develop their own projects and have fun meanwhile.

Participation and observation is free and therefore many students from different universities from all over the country take part in the event which makes **FMICodes** popular not only amongst people studying in FMI but also with everyone interested in the IT field. The hackathon will be held on the **27th and 28th of May**. The program includes 24 hours of writing code, looking for bugs, finding bugs and making progress with the help of the mentors. The theme is **Code for Fun**, the place - **Faculty of Mathematics and Informatics**, a thriving hub for ideas and innovations.

Why Sponsor Our Hackathon?

Sponsoring can help your company to:

- Gain the awareness of the top **150+** young developers of your brand.
- Mentor participants thus establish a relationship with young talents.

Who are we?

The Student Union is an informal organization of motivated students in The Faculty of Mathematics and Informatics (FMI). Since we are a group of volunteers, we do not get paid for the organization of this hackathon. Our goal is to expand the range of opportunities the students of FMI can benefit during their study.
